

gamma-Glutamyl Transferase Activity Assay Kit

Catalog Number: AKAS0289

Price: [Online Inquiry](#)

Product Information	
Product Name	gamma-Glutamyl Transferase Activity Assay Kit
Instruments	Microplate Reader
Sample Type	Serum, Plasma, Animal Tissue
Research Area	Diabetes & Obesity Liver Biomarker Enzyme Activity Amino Acid and Protein
Detection Principle	γ -GT catalyzes the transfer of gamma glutamyl group from glutamyl p-nitroaniline to N- glycyl glycine to produce p-nitroaniline, which has characteristic absorption peak at 405nm. The activity of γ -GT can be calculated according to the changing rate of absorbance value.
Assay Time	20 min
Storage	2-8 $^{\circ}$ C
Shipping Conditions	Gel Pack
