

## LINGO2 Knockout cell line (NCM460)

**Catalog Number:** KOA66077

| Product Information        |                                                                                                                                                                           |
|----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Name               | LINGO2 Knockout cell line (NCM460)                                                                                                                                        |
| specification              | 1*10 <sup>6</sup>                                                                                                                                                         |
| Storage and transportation | Shipped on dry ice; Store in liquid nitrogen                                                                                                                              |
| Cell morphology            | Epithelial-like, adheren                                                                                                                                                  |
| Passage ratio              | 1:2~1:3                                                                                                                                                                   |
| species                    | Human                                                                                                                                                                     |
| Gene                       | LINGO2                                                                                                                                                                    |
| Gene ID                    | 158038                                                                                                                                                                    |
| Build method               | Electroporation/Lentivirus                                                                                                                                                |
| Mycoplasma testing         | negative                                                                                                                                                                  |
| Cultivation system         | 90%RPMI-1640+10%FBS                                                                                                                                                       |
| Price (USD)                | Inquiry                                                                                                                                                                   |
| Parental Cell Line         | NCM460                                                                                                                                                                    |
| Quality Control            | Genotype: LINGO2 Knockout cell line (NCM460)>95% viability before freezing. All cells were tested and found to be free of bacterial, viruses,mycoplasma and other toxins. |
