

CD Custom Biomarker Group 2 (mouse) Assays

Catalog Number: AK1604

Price: [Online Inquiry](#)

Product Information	
Product Name	CD Custom Biomarker Group 2 (mouse) Assays
Description	The CD platform makes it easy to create multiplex immunoassays. Using two simple tools - a 10-spot CD plate and unique Linkers - you can build multiplex assays for any combination of analytes. The analytes in the CD menu are organized into CD Groups. Analytes within the same CD Group have been tested for multiplex compatibility and can be combined in panels with confidence. The CD Biomarker Group 2 (mouse) contains three TGF- β assays, which benefit from acid-dissociated samples. This CD Group can be ordered as a full panel or as one or more smaller panels that are subsets of the full panel. The full panel is available as a catalog product K15242K. Ordering any subset of assays from the CD Biomarker Group 2 (mouse) is simple and can be done online with MSD's CD Assay Designer.
Species	Mouse
Instruments	SECTOR Imager 2400 , SECTOR Imager 6000 , MESO QuickPlex SQ 120 , MESO QuickPlex SQ 120MM , MESO SECTOR S 600 , MESO SECTOR S 600MM
Sample Type	Cell Culture Supernatant, Plasma, Serum
Schedule B Code	3002.15.0100
Plate Type	96-well
Usage	For Research Use Only. Not for use in diagnostic procedures.
Storage Conditions	Multi-Component
