

## CD Biomarker Group 1 (NHP) 384-well Assays

**Catalog Number:** AK1649

**Price:** [Online Inquiry](#)

Product Information	
Product Name	CD Biomarker Group 1 (NHP) 384-well Assays
Description	The U-PLEX platform makes it easy to create multiplex immunoassays. Using two simple tools - U-PLEX 384-well plates and unique Linkers - you can build multiplex panels for any combination of analytes. The analytes in the U-PLEX menu are organized into U-PLEX Groups. Assays within the same U-PLEX Group have been tested for multiplex compatibility and can be combined in panels with confidence. The U-PLEX Custom Biomarker Group 1 (NHP) products (Table 1) enable multiplex panels that combine U-PLEX biomarker assays with other content. They are fulfilled with a U-PLEX plate where some of the spots measure U-PLEX analytes and some of the spots are left "open". The "open" spots can be used for custom content such as MSD's CD Antibody Sets or antibodies from other sources. Ordering a Custom U-PLEX assay is simple and can be done online with our U-PLEX Assay Designer.
Species	Non-human primate
Instruments	MESO SECTOR S 600 , SECTOR Imager 6000 , MESO SECTOR S 600MM
Dynamic Range	Research Use Only
Sample Type	Cell Culture Supernatant, Plasma, Serum
Schedule B Code	3002.15.0100
Plate Type	384-well
Usage	For Research Use Only. Not for use in diagnostic procedures.
Storage Conditions	Multi-Component
