Product Information	
Product Name	CD Human E-Cadherin Antibody Set
Description	The CD platform offers matched sets of antibodies and calibrators for a wide menu of biomarkers. The CD Human E-Cadherin Antibody Set can be used with other MSD components (see "Recommended Components" tab below) to build assays that measure E-Cadherin. These assays can measure E-Cadherin alone or in multiplex panels with other biomarkers. The Product Inserts for CD Antibody Sets provide detailed instructions for building assays in several formats. The Datasheet for E-Cadherin provides lot specific information for the components (including calibrator stock concentrations), recommended sample types and dilution factors, and representative data for analytical performance. These items and other helpful documents can be found in the "Documentation" tab below.
