### Product Information

Product Name	CD Mouse Complement C5a Antibody Set
Description	The CD platform offers matched sets of antibodies and calibrators for a wide menu of biomarkers. The CD Human Complement C5a Antibody Set can be used with other MSD components (see "Recommended Components" tab below) to build assays that measure Complement C5a. These assays can measure Complement C5a alone or in multiplex panels with other biomarkers. The Product Inserts for CD Antibody Sets provide detailed instructions for building assays in several formats. The datasheet for Complement C5a provides specific information for the components (including calibrator stock concentration), recommended sample types and dilution factors, and representative data for analytical performance. These items and other helpful documents can be found in the "Documentation" tab below. Related Key Terms Anaphylatoxin
