Product Information	
Product Name	CD Human ApoE Antibody Set
Description	The CD platform offers matched sets of antibodies and calibrators for a wide menu of biomarkers. The CD Human ApoE Antibody Set can be used with other MSD components (see "Recommended Components" tab below) to build assays that measure ApoE. These assays can measure ApoE alone or in multiplex panels with other biomarkers. The Product Inserts for CD Antibody Sets provide detailed instructions for building assays in several formats. The datasheet for ApoE provides specific information for the components (including calibrator stock concentration), recommended sample types and dilution factors, and representative data for analytical performance. These items and other helpful documents can be found in the "Documentation" tab below.
Applications	Metabolic
