Product Information	
Product Name	CD Human Prolactin Assay
Description	The CD platform offers both antibody sets and assays for a wide menu of biomarkers. The CD Human Prolactin Assay has the essential components to build an assay that measures Prolactin in a single analyte format. For information on multiplexing Prolactin with other analytes, please see the CD Assay Designer or the CD Human Prolactin Antibody Set. The Product Insert for CD Assays provides detailed instructions for building a singleplex assay. The datasheet for Prolactin provides information on the components (including calibrator stock concentration), recommended sample types and dilution factors, and representative data for analytical performance. These items and other helpful documents can be found in the "Documentation" tab below.
