Product Information

Product Name	CD Human Tau (pT217) Kit
Description	CD is MSD's ultrasensitive assay platform. It can dramatically improve the sensitivity of immunoassays, reducing the lower limit of detection (LLOD) by 10- to 1000-fold over other assay methods. The CD Human Tau (pT217) Assay has the essential components for an ultrasensitive assay that measures phosphorylated Tau at threonine 217 in a single-analyte format. For detailed instructions on running the Tau (pT217) assay, please see the product insert in the "Documentation" tab below. Related Key Terms: MAPT, microtubule-associated protein tau, Phospho Tau-217, Phosphorylated Tau, pTau217, pTau-217, Threonine217, Alzheimer's disease, neurodegeneration, neurology
