

SAR(Sarafloxacin) ELISA Kit

Catalog Number: FSK0018

Price: [Online Inquiry](#)

Product Information	
Product Name	SAR(Sarafloxacin) ELISA Kit
Reactivity	Universal
Sample Type	Muscle, Honey, Milk, Milk powder, Egg, Urine
Analytes	Quantitative analysis of Sarafloxacin.
Reaction Temperature	25°C
Assay Time	45 min, 15 min
LOD (Detection Limit)	Muscle-0.3 ppb; Honey-0.4 ppb; Milk-3 ppb; Milk powder-6 ppb; Eggs--3 ppb; Urine-0.5 ppb
Sample Preparation	Preparation methods are included in the kit description.
Instruments	Spectrophotometer, Microplate, Auto-analyser
Detection Method	Absorbance
Wave length (nm)	450 nm/630 nm
Detection Range	See the manual for details
Storage	2-8°C, avoid freeze
Expiration Date	1 year
