

## DL-Kynurenine

**Catalog Number:** UD-0565

**CAS Number:** 343-65-7

**Price:** [Online Inquiry](#)

| Catalog Number | Price                          |

| Product Information |                                                                                                       |
|---------------------|-------------------------------------------------------------------------------------------------------|
| Molecular Formula   | C10H12N2O3                                                                                            |
| Molecular Weight    | 208.21                                                                                                |
| Purity              | ≥95.0% (NT)                                                                                           |
| SMILES              | NC(CC(=O)c1ccccc1N)C(=O)O                                                                             |
| Alternate Name      | α,2-Diamino-γ-oxobenzenebutanoic Acid, 3-Anthraniloylalanine, DL-Kynurenine, Kynurenin, dl-Kynurenine |
| Appearance          | TRC-K661000-100MG                                                                                     |
| IUPAC Name          | 2-amino-4-(2-aminophenyl)-4-oxobutanoic acid                                                          |

| Properties          |                  |
|---------------------|------------------|
| Storage Conditions  | +4°C             |
| Shipping Conditions | Room Temperature |
