

ATP Assay Kit

Synonym: Adenosine Triphosphate Assay Kit

Catalog Number: EK0219

Product Size: 1 KT

Price: [Online Inquiry](#)

Product Information	
Storage Temperature	-20°C
Shipping Conditions	Gel ice pack.
Usage	Sufficient for 100 colorimetric or fluorometric tests.
Description	Adenosine triphosphate (ATP) is a nucleoside triphosphate and a high-energy molecule. It is formed exclusively in the mitochondria and involved in most cellular processes. ATP Assay Kit can be used to quantify the concentration of ATP in biological samples, such as tissue and cell culture samples.
