

Fructose Assay Kit (Colorimetric/Fluorometric)

Catalog Number: EK0282

Product Size: 1 KT

Price: [Online Inquiry](#)

Product Information	
Storage Temperature	-20°C
Shipping Conditions	Gel ice pack.
Detection Method	Colorimetric or fluorometric.
Usage	Sufficient for 100 colorimetric or fluorometric tests.
Description	Fructose is a monosaccharide. It is naturally found in honey and fruits. Fructose has been implicated in the development of the metabolic syndrome, obesity epidemic, and cardiovascular diseases. Fructose Assay Kit (Colorimetric/Fluorometric) can be used to detect fructose in cell and tissue culture supernatants. It is not suitable for serum, plasma, and urine samples.
