

## Galactose Assay Kit (Colorimetric/Fluorometric)

**Catalog Number:** EK0284

**Product Size:** 1 KT

**Price:** [Online Inquiry](#)

### Product Information

Storage Temperature	-20°C
Shipping Conditions	Gel ice pack.
Detection Method	Colorimetric or fluorometric.
Usage	Sufficient for 100 colorimetric or fluorometric tests.
Description	Galactose is a simple monosaccharide. It is an essential component of glycolipids and glycoprotein. Galactose contributes to energy metabolism. Galactose Assay Kit (Colorimetric/Fluorometric) can be used to determine the concentration of reactor galactose in various biological samples, such as serum, plasma, and food.
