

Glucose (HK) Assay Kit

Catalog Number: EK0286

Product Size: 1 KT

Price: [Online Inquiry](#)

Product Information

Storage Temperature	2-8°C
Shipping Conditions	Wet ice.
Usage	Sufficient for 20 assays.
Description	Glucose is a simple sugar and the most abundant monosaccharide. It can be oxidized to gluconic acid and hydrogen peroxide by glucose oxidase and serves as the primary source of energy for most cells. Glucose (HK) Assay Kit can be used to quantitatively determine glucose in various samples.
