

## Lactose Assay Kit

**Catalog Number:** EK0298

**Product Size:** 1 KT

**Price:** [Online Inquiry](#)

Product Information	
Storage Temperature	-20°C
Shipping Conditions	Gel ice pack.
Detection Method	Colorimetric or fluorometric.
Usage	Sufficient for 100 colorimetric or fluorometric tests.
Description	Lactose is a disaccharide which contains one galactose and one glucose molecule. It can be hydrolyzed by the enzyme lactase to its constituent monosaccharides. Lactose Assay Kit can be used to measure the level of lactose in various biological samples, such as serum, plasma, other biological fluids, growth media, and food.
