

Succinate Assay Kit

Catalog Number: EK0307

Product Size: 1 KT

Price: [Online Inquiry](#)

Product Information

Storage Temperature	-20°C
Shipping Conditions	Gel ice pack.
Detection Method	Colorimetric or fluorometric.
Usage	Sufficient for 100 colorimetric or fluorometric tests.
Description	Succinate or succinic acid is an intermediate in the citric acid cycle. It can be found in all animal tissues and plants. Succinate is important to intracellular energy generation. Succinate Assay Kit can be used to determine succinate in various samples, such as biological samples, foods, and agricultural products.
