

Sucrose Assay Kit (Colorimetric/Fluorometric)

Catalog Number: EK0309

Product Size: 1 KT

Price: [Online Inquiry](#)

Product Information	
Storage Temperature	-20°C
Shipping Conditions	Gel ice pack.
Detection Method	Colorimetric or fluorometric.
Usage	Sufficient for 100 colorimetric or fluorometric tests.
Description	Sucrose is a disaccharide which can be hydrolyzed to glucose and fructose by invertase. It is a major product during photosynthesis. Sucrose Assay Kit (Colorimetric/Fluorometric) can be used to detect sucrose in various biological samples, such as growth medium, serum, plasma, and food.
