| Product Information |                                                                                                                                                                |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Molecular Formula   | C <sub>15</sub> H <sub>12</sub> N <sub>2</sub> O <sub>7</sub>                                                                                                  |
| Molecular Weight    | 332.26                                                                                                                                                         |
| Purity              | ≥98% by HPLC                                                                                                                                                   |
| SMILES              | <chem>C1CC(=O)NC(=O)C1N2C(=O)C3=C(C2=O)C(=CC=C3)OCC(=O)O</chem>                                                                                                |
| InChi               | InChI=1S/C15H12N2O7/c18-10-5-4-8(13(21)16-10)17-14(22)7-2-1-3-9(12(7)15(17)23)24-6-11(19)20/h1-3,8H,4-6H2,(H,19,20)(H,16,18,21)                                |
| InChi Key           | ZVWIXIGBWIEDFO-UHFFFAOYSA-N                                                                                                                                    |
| Alternate Name      | 2-[[2-(2,6-Dioxo-3-piperidiny)-2,3-dihydro-1,3-dioxo-1H-isoindol-4-yl]oxy]acetic acid, Carboxylic acid-functionalized Thalidomide, cereblon ligand for PROTACs |
| Appearance          | Off-white solid                                                                                                                                                |

| Properties          |                   |
|---------------------|-------------------|
| Storage Conditions  | -20°C             |
| Shipping Conditions | Gel Pack          |
| Solubility          | >30 mg/ml in DMSO |
