

## hATF4 gRNA1 KO plasmidhATF4 gRNA2 KO plasmidhATF4 gRNA3 KO plasmid

**Catalog Number:** GP01745

**Price:** [Online Inquiry](#)

| Product Information     |                                                                                |
|-------------------------|--------------------------------------------------------------------------------|
| Product Name            | hATF4 gRNA1 KO plasmidhATF4 gRNA2 KO plasmidhATF4 gRNA3 KO plasmid             |
| gRNA sequence           | GGATTTGAAGGAGTTCGACT TGG(93,0.69),TGTCATCCAACGTGGTCAGA AGG(66,0.61),NA (NA,NA) |
| Gene                    | hATF4                                                                          |
| Gene ID                 | 468                                                                            |
| Fluorescence/resistance | EGFP/puro                                                                      |
| Vector type             | Conventional vector                                                            |
| specification           | 1ml/tube                                                                       |
