

## TMEM222 Knockout cell line (293T)

**Catalog Number:** KOA00439

| Product Information        |                                                                                                                                                                          |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Name               | TMEM222 Knockout cell line (293T)                                                                                                                                        |
| specification              | 1*10^6                                                                                                                                                                   |
| Storage and transportation | Shipped on dry ice; Store in liquid nitrogen                                                                                                                             |
| Cell morphology            | Epithelial-like, adherent                                                                                                                                                |
| Passage ratio              | 1:3~1:6                                                                                                                                                                  |
| species                    | Human                                                                                                                                                                    |
| Gene                       | TMEM222                                                                                                                                                                  |
| Gene ID                    | 84065                                                                                                                                                                    |
| Build method               | Electroporation/Lentivirus                                                                                                                                               |
| Mycoplasma testing         | negative                                                                                                                                                                 |
| Cultivation system         | 90% DMEM+10%FBS                                                                                                                                                          |
| Price (USD)                | Inquiry                                                                                                                                                                  |
| Parental Cell Line         | 293T                                                                                                                                                                     |
| Quality Control            | Genotype: TMEM222 Knockout cell line (293T)>95% viability before freezing. All cells were tested and found to be free of bacterial, viruses,mycoplasma and other toxins. |

| Gene Information        |                                                                                                |
|-------------------------|------------------------------------------------------------------------------------------------|
| Gene Official Full Name | transmembrane protein 222provided by HGNC                                                      |
| Also known as           | C1orf160; NEDMOSBA                                                                             |
| Gene Description        | Located in dendrite. [provided by Alliance of Genome Resources, Apr 2025]                      |
| Expression              | Ubiquitous expression in thyroid (RPKM 11.2), testis (RPKM 10.1) and 25 other tissues See more |
