

## 2,6,10,14-Tetramethylpentadecanoic acid

**Catalog Number:** LP-0541

**CAS Number:** 1189-37-3

**Price:** [Online Inquiry](#)

| Catalog Number | Price                          |

| Product Information |                                                                                                         |
|---------------------|---------------------------------------------------------------------------------------------------------|
| Molecular Formula   | C19H38O2                                                                                                |
| Molecular Weight    | 298.5                                                                                                   |
| Purity              | >98%                                                                                                    |
| SMILES              | <chem>O=C(O)C(C)CCCC(C)CCCC(C)CCCC(C)C</chem>                                                           |
| InChi               | InChI=1S/C19H38O2/c1-15(2)9-6-10-16(3)11-7-12-17(4)13-8-14-18(5)19(20)21/h15-18H,6-14H2,1-5H3,(H,20,21) |
| InChi Key           | InChIKey=PAHGJZDQXIOYTH-UHFFFAOYSA-N                                                                    |
| Alternate Name      | 2,6,10,14-Tetramethylpentadecanoic acid, Pristanic acid                                                 |
| Appearance          | Liquid                                                                                                  |
| IUPAC Name          | Pentadecanoic acid, 2,6,10,14-tetramethyl-                                                              |

| Properties         |                  |
|--------------------|------------------|
| Storage Conditions | Room temperature |
