

## ASGR2 Knockout cell line (AC16)

**Catalog Number:** KOA16964

| Product Information        |                                                                                                                                                                         |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Name               | ASGR2 Knockout cell line (AC16)                                                                                                                                         |
| specification              | 1*10^6                                                                                                                                                                  |
| Storage and transportation | Shipped on dry ice; Store in liquid nitrogen                                                                                                                            |
| Cell morphology            | Fibroblast-like, adherent                                                                                                                                               |
| Passage ratio              | 1 : 3-1 : 4                                                                                                                                                             |
| species                    | Human                                                                                                                                                                   |
| Gene                       | ASGR2                                                                                                                                                                   |
| Gene ID                    | 433                                                                                                                                                                     |
| Build method               | Electroporation/Lentivirus                                                                                                                                              |
| Mycoplasma testing         | negative                                                                                                                                                                |
| Cultivation system         | 90% DMEM/F12+10% FBS                                                                                                                                                    |
| Price (USD)                | Inquiry                                                                                                                                                                 |
| Parental Cell Line         | AC16                                                                                                                                                                    |
| Quality Control            | Genotype: ASGR2 Knockout cell line (AC16)>95% viability before freezing. All cells were tested and found to be free of bacterial, viruses, mycoplasma and other toxins. |
